

Your teen's best smile. Now up to 50% faster.*

Why Invisalign® clear aligners are right for your teen

Up to 75% more predictable teeth movements with SmartTrack® material, for the smile you both expect.**

Treats simple to complex cases through technological innovations such as SmartForce® attachments.

A less painful overall experience compared to braces.***

Progress is monitored with blue compliance indicator dots that fade over time to make sure your teen wears the clear aligners as prescribed.

> Proven to treat simple to complex cases.

Invisalign clear aligners use the most advanced technology to design and create treatments that correct a wide range of teeth-straightening issues.

Crossbite

Open Bite

Overbite

Crowding

Spacing

Underbite

*With weekly aligner changes, compared with two-week aligner wear.

**When compared with clear aligners that are made of off-the-shelf, single-layer .030 inch material. Data on file at Align Technology.

***In a pain score of 1-9 among teens, teen patients rated Invisalign clear aligners as being less painful than braces.

Discover the Invisalign® treatment advantage.

	Invisalign® Clear Aligners	Traditional Braces	Ceramic Braces	Lingual Braces	Other Clear Aligners
	Custom-made clear aligners that fit closely to the teeth. Replaced every 1-2 weeks.	Stainless steel brackets and wires attached to the outside of teeth and manually adjusted throughout treatment.	Clear brackets attached to the outside of teeth and manually adjusted throughout treatment.	Metal brackets and wires attached to the back of the teeth and manually adjusted throughout treatment.	A series of clear trays that move teeth into their proper position.

Comes with Teen Guarantee ⁴	●				

1. The Invisalign Teen Confidence Survey was conducted in 2014 and polled 3,577 U.S. teenagers ages 13-17 and 2,118 U.S. mothers of teens ages 13-17, plus an oversample of 101 mothers of teens ages 13-17 who wear or have worn Invisalign clear aligners. The survey was conducted by Kelton, a leading global consumer insights and research firm.

2. Many dental insurance plans cover Invisalign treatment just as they would other orthodontic treatments. Ask your doctor about how to use your orthodontic insurance coverage to pay for Invisalign treatment.

3. SmartTrack® material vs. aligners made from off-the-shelf, single-layer .030-inch material.

4. The Invisalign Teen Guarantee gives you the confidence to choose Invisalign Teen clear aligners for your teen knowing that if you are not satisfied within the first six months of treatment a participating orthodontist will switch your teen into traditional wires and brackets at no additional cost.
